Velmayil Enterprises - Journey of Growth and Diversification

Velmayil Enterprises, established in 1982, is a leading player in the field of Plastics and Packaging Engineering. Our strength lies in the seamless combination of quality and service that we provide. We have deliberately chosen to collaborate with only the best manufacturers for the products we distribute. This commitment ensures that our customers receive the highest standards, and our wide clientele of corporate and semi-corporate companies attests to our reputation and goodwill.

1982 Manufacturer-engineering components for Textile industries.

1983 Distribution of plastic BOPP FILMS and adhesives for indigenous and export markets of printing and packaging industry.

1989 Distribution of modern plastic color masterbatches to replace traditional pigments used in Textile, plastic and printing industries.

1990 Founded **GEEARCEEL TRUST** - An educational trust for offering part-time evening classes for a Master of Business Administration (MBA) program affiliated with New Port University (USA).

1995 **EMERALD INFOSYS** - Sales and Service of computer hardware, software, and structural cabling solutions to corporate companies and industries across Tamil Nadu.

2004 **VELMAYIL CULTURAL MAHALL** Multi Facility Center for trade shows, corporate meetings, weddings, and multicultural activities at Vadavalli, Coimbatore.

2011 **VELMAYIL ININFO SERVICES** - Providing End to End Information Technology consulting and services.

2017 **VELMAYIL ENTERPRISES** - * Introduced Eco Friendly packaging solutions from world leading manufacturers using Kraft paper packaging which is the best alternative for plastics/thermocol.
* Automated kit packing machines. * Bio degradable bags for Garments * Rust prevention solutions using VCI paper.

2023 **VELMAYIL PACKAGING LLP** - Manufacturing and Servicing packaging machines, automated manufacturing lines, conveyors, and elevators needed by modern manufacturing industries.

VELMAYIL - PACKAGING & SEALING MACHINES

VELMAYIL - BAND SEALING MACHINE

HORIZONTAL

VERTICAL

MINI

According to the latest requirement of market this model is capable of performing 5 different task in one machine like vacuum, inflatable (such as nitrogen or other gases), seal, code, in one set, continuous sealing and packing machine.

5 in 1 BAND SEALING

VELMAYIL - VACCUM SEALING MACHINE

Vacuum packaging machine is featured by processing of vacuuming, sealing, cooling which is used in vacuum packaging for the food, pharmaceutical, aquatic, chemical and electronic industries. Vacuum Packaging can prevent the products from oxidization and mildew, as well as corrosion and moisture

DOUBLE CHAMBER

VELMAYIL – FOOD PACKING MACHINES

VELMAYIL - FORM FILL SEAL (FFS) Machine (50 gm TO 1000 gm)

Machines that form the package, fill it with a wet or dry product, and seal it shut are known as Form-Fill-Seal machines. Flexible film is used in most FFS packing machine to create the primary kit, such as a bag or pouch. Form-fill-seal operations are also used to make gable-top and aseptic cartons. A Thermoform/fill/seal unit, a close relative, produces even more blister packs.

Suitable for packing materials like grains, pulses, dry fruits, dry powder, chemicals and pharmaceuticals, micro and small components such as general non-sticky solid materials.

VELMAYIL - WEIGHT BASED FILLING MACHINE (100gm - 1kg , 3kg, 5kg, double head)

Semi weighing filling machine is used for accurate weighing and filling of ultrafine particles. Signals from the weight sensor are denoted on the Digital display that shows the weight of the particle output. It is used for the packaging of toners, additives, extinguishers etc. This weighing machine can carry 10 to 99.9 grams of weight. Semi Weighing Filling Machine working principle - It is the semi-automatic weighing and filling machine and the granule is poured into the carry bag held below.

VELMAYIL – FILL & PACK MACHINES

VELMAYIL - MANUAL & SEMI AUTOMATIC PASTE FILLER (100 -1000 ml)

Manual Filling machine. This is an easy, compact and simple to use hand operated machine for liquid or paste filling with precise provisions to control volumes between 100 and 1000ml.

Semi-automatic Piston Type Paste Filling : This is a compact, stainless steel machine equipped with precise controls for adjusting filling speed and volume and is provided with leak proof filling head.

MANUAL

SINGLE NOZZLE

DOUBLE NOZZLE

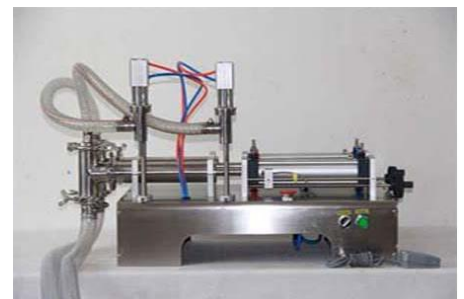

VELMAYIL - LIQUID FILLER (100 – 1000 ml)

DIGITAL FILLING

SINGLE NOZZLE

DOUBLE NOZZLE

Single Head Digital Liquid Filling Suitable for filling of low viscous liquids like water, perfume, Phenyl, etc. Simple to operate and cost effective. High filling efficiency and accurate measurement.

Semi Automatic Liquid Filling Piston and Hopper are made up of Stainless Steel 304 Grade. Requires Air Compressor for machine. Suitable for high viscous liquid products like Edible oil, Toilet Cleaner, Hand wash, Engine oil, etc. Filling head adopts anti-leakage and lifting device.

VELMAYIL – SHRINK PACKAGING MACHINES

VELMAYIL - L-SEALER WITH SHRINK TUNNEL

This machine is widely used in foodstuff, drinks, printing, pharmaceutical, floor, hardware, and other industries shrink packaging. It is suit POF, PVC, and other packaging material

VELMAYIL - AUTOMATIC FEEDER BELT CODING CONVEYOR

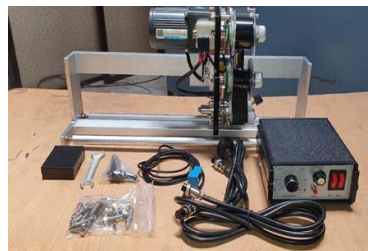

The machine for automatic conveyor can be used to spurt the code machine and the laser machine; also can be used independently, simple structure, convenient operation Using high speed motor, improve production efficiency Reasonable structural design, simple and quick replacement of easily-worn parts can realize combination of the functions according to options the customer

4 Bowl Feeder Counting and Packing Machine

High Machine Efficiency With Perfect Bag Quality

Kitting system: 4 Different products in 1 pouch or in separate pouch

Multi Product Counting & Packing Machine

High Speed Counting, Kitting & Packing System

Kitting system: 12 Different products in 1 pouch or in separate pouch

MACHINE FEATURES

- The Machine gives an Alarm when the Material is Empty.
- Counting & all setting change by 7" Coloured Touch Screen HMI.
- High Density Heaters and High Accurate Counting Sensor.
- Standard Electrical and Pneumatic Components.
- Automatic Pouch Counting System, Machine will Stop as per Order Size.
- Easy to Operating & Set 50 to 100 Program Saving System as per your Requirements.
- Mix or Separate Products Packing as per your Requirements.
- Special Design Vibratory Bowl Feeder as per your Products.
- Use Printed or Plain Laminated Roll.
- Online Bar Code & Other Details Printing System.
- Electric Parts: Delta, Siemens & Mitsubishi.
- Pneumatic parts: Janatics, Festo & SMC.

STOROpack

Storopack, Germany is a pioneer in **PERFECT PROTECTIVE PACKAGING** on Paper, Plastics, Bio Degradable, Home Compostable, Industry Compostable Packing Materials and Machines.

PAPERplus® CLASSIC - Ideal for all Industries

The ideal protective packaging solution for heavy weight products

- Economical void-fill using single-ply paper.
- Superior cushion and protection.
- Resists tearing and perforation.
- Recyclable and reusable, Formed on-demand, Easy to use.

PAPERplus® TRACK - Ideal for all Industries

The system is ideal for medium to large packages weighing between 5 and 50 kg

- Ultra-high speed for the ideal protective packaging.
- The perfect solution for shipping spare parts, electronic components, ceramics, and more.
- Especially user-friendly: perforated paper makes it possible to separate the paper cushion without a blade and with a single motion.

PAPERplus® PAPILLON – Ideal for Ecommerce Shipments

Optimal protection for small and medium-sized shipping goods

- The patented designed pads give a high quality and attractive look, offering the recipient a positive unboxing experience.
- Very light and flexible padding.
- Compact, space-saving design machine.
- Table top or mobile machine.
- Paper cushioning is available in brown, black and white.

PAPER BUBBLE – A good Alternative to Plastic Bubble

- **Available Size:** 580 mm x 380 mm (perforated paper sheets).
- **Color :** Brown & White.
- Eco-friendly alternative to traditional air bubble film
100% recyclable.
- PAPER bubble® does not require a machine system, which not only makes it a user-friendly packaging solution, but also a particularly cost-effective one.
- Elegant and unique appearance in the shipping carton

BIO-DEGRADABLE FILMS – Home Compostable

Packing material made from corn and potato starch collected from food production waste

- Suitable for Ecommerce sellers and etc.,
- Biodegradable Void filling material are currently available in two sizes 120 x 200mm & 175 x 200mm
- Consumables at very affordable costing available

AIRplus® 100% RECYCLED Plastic Films

- Sustainable and cost-saving.
- Protect products in shipping boxes during transport.
- Air cushions consist of 99% air and only 1% film.
- AIRplus® 100% Recycled air cushions are also recyclable and can be added to the recycling loop again.

AIRplus® CUSHION & VOID – Above 50 Micron

- The optimal protective packaging for sensitive products.
- Light as a feather and reliably shock-resistant.
- Reduction in raw materials due to multi-layer CO extrusion.
- AIRplus® film types can be recycled.

PAPER BUBBLE WRAP - Honeycomb Pattern

- **Alternate to traditional bubble wrap.** Wrapping has never been easier and more secure. Used to wrap small, light weight products.
- Continuous perforation allows you to tear your pack at the most efficient custom length without cutting. No cutters/blades required.
- Compact, light weight, and can be placed easily on the packing station
- One-time buy of Dispensing Stand is required for ease of packing.
- **Great aesthetics**, 100% eco-friendly, intuitive and easy to wrap your products.

Recycling Machine for your used Corrugated Boxes

Make 2 formats in single machine

Void filling and
Cushioning Material
(Wave)

Flat Padding
Material (Mats)

- **UPCYCLE** –Convert waste boxes to useful packaging material used as fillers for wrapping or void filling so that your products are protected during transit.
- Turn waste/unwanted boxes into useful packaging fillers for protecting your products during transit; thus saving on procuring additional materials.
- Designed in India. Made in Germany machines.

Self Adhesive Paper Tape

Self Adhesive paper tape is a product that is made out of Flat Back Paper coated with strong adhesive as the Packaging Solution with special features of high adhesion strength, tear-resistant- a next-generation product for packing solution.

Features

- Pressure Sensitive, Moisture Resistant, Waterproof Adhesive Tapes, Strong Synthetic Rubber Adhesive Tapes.
- Aggressive natural/synthetic rubber adhesive is designed to offer positive adhesion.

Water Activated Paper Tape

Benefits

- Permanent box closure.
- Secures Bond.
- All-Weather Use.
- Pilfer proof for security.
- Durability and strength.
- Environmentally friendly.
- Closure appearance.
- Available in both Reinforced & Non-Reinforced.
- Single color print for Branding.

Single Color Printing for better branding

Reinforced Kraft Paper Tape – Good for weights above 10 kg

Velmayil Enterprises is the Authorised Distributor for **ZERUST – HARITA NTI., USA.**, We provide complete range of VCI Products – Rust Preventive Oil, Rust Remover, VCI Poly Films, VCI Kraft Paper, VCI 2D bags, 3D bags., NTIC,USA are pioneers in VCI technology and have global reach of customers to provide total **Corrosion Management.**

VCI Packaging Films

Zerust VCI Film provides cost-effective and versatile protection against corrosion damage for metals in shipping and storage.0

Availability : VCI 2D Bags, VCI 3D Bags – Box bag, Gusseted bag, Sandwich Bag (with or without Flap), Rolls

Ferrous

Multi-Metal

Non-Ferrous

VCI Stretch

VCI Packaging Papers

Zerust VCI Paper provides cost-effective and versatile protection against corrosion damage for metals in shipping and storage.

Availability : Sheets, Rolls

VCI Paper

VCI Poly Laminated Paper

Scrim with VCI Paper

Creped Kraft Paper

VCI Emitters & VCI Diffusers

ZERUST® Vapor Capsules are portable capsules that are used to protect metals in hard-to-reach areas of control panels, electrical cabinets, and other enclosed spaces.

Product Name	Volume of Protection	Radius of Protection	Duration of Protection	Adhesive Backing
VC1-1 (S)	4 ft ³ (0.12 m ³)	1 ft (0.3 m)	1 year	Yes
VC1-1	4 ft ³ (0.12 m ³)	1 ft (0.3 m)	1 year	Yes
VC2-1	35 ft ³ (1 m ³)	2 ft (0.6 m)	1 year	Yes
VC2-2	35 ft ³ (1 m ³)	2 ft (0.6 m)	2 year	Yes
VC6-1	900 ft ³ (25 m ³)	6 ft (2 m)	1 year	No
VC6-2	900 ft ³ (25 m ³)	6 ft (2 m)	2 year	No

Rust Preventive Oil and Coatings

The ZERUST anti-corrosion oils consist of solvent and oil-based rust preventative products designed to protect ferrous, non-ferrous, and multimetal metal assets.

Brands: Axxanol, Ze-Verp

Availability : 35 Liters can & 210 Liters Barrel

Rust Preventive Aerosol (MRO) - AxRUST 4 - The Rust Warrior

AxRUST4 is an EXCELLENT MRO (Maintenance Repair Overhaul) product in its unmatched Quality, Reliability and Adaptability for numerous industrial, automotive, and domestic applications.

APPLICATION: Cleans | Lubricates | Loosens Tight Assemblies | Displaces Moisture | Inhibits Rust

Available sizes in Aerosol cans : 125ml, 250ml and 500ml.

VCI BIO Film - Zerust®/Excor® Natur-VCI™

The Zerust®/Excor® Natur-VCI™ series is an internationally certified fully biodegradable and compostable Volatile Corrosion Inhibiting (VCI) packaging material designed to protect metal components from rust and corrosion during shipment and short-term storage.

Availability

- Rolls, Sheets
- Bags of Flat, Gusset and 3D box type
- Typical color is translucent green.

Protection Types

Ferrous (steel, iron and alloys) and non-ferrous (aluminum, copper, brass, bronze, and galvanized)

Protection Life

Protects clean dry metals for up to 6 months when used correctly

Zerust Cleaning Media

Axxawash I MMW

Zerust **AXXAWASH I MMW** is a neutralizing, aqueous, low alkaline, **low foaming**, Ferrous and Aluminum cleaner containing biodegradable surfactants and corrosion inhibitors.

Axxawash I MMW D

Zerust **AXXAWASH I MMW D** is a neutralizing, aqueous, low alkaline, **no foaming**, Ferrous and Aluminum cleaner containing biodegradable surfactants and corrosion inhibitors made to be used in de-mineralized water only.

Rust Removers

LIGHT RUST

Light to Medium Rust Remover. Zerust 620-RR is a pH neutral immersion dip that removes rust, even in crevices, pits and threads

MEDIUM RUST

AxxaClean™ 2048 is a fast-acting, safe rust remover that removes light to medium rust and tarnish, even in cracks and crevices

HEAVY RUST

ZERUST® AxxaClean™ 3048 rapidly removes light to heavy rust and tarnish, even in cracks and crevices.

DURASILVER - Anti-Tarnish Bag

Anti-Tarnish bags that protect silver against oxidation & tarnish

SL Num	DURASILVER Ziplock Sizes	Per	UOM	Qty/Box
1	Bag 4"x6" S	1	BOX	10
2	Bag 6"x9" M	1	BOX	10
3	Bag 8"x8" L	1	BOX	10
4	Bag 10"x12" XL	1	BOX	10
5	Bag 12"x14" XXL	1	BOX	10
6	Bag Assorted	1	BOX	10

Hermetic Bags

Protects dry agricultural commodities,
Preserves Taste & Aroma without using any Chemicals

Protect and Save Food Grains... Let's Help our Farmers....

Grainpro Bags are an affordable Ultra-Hermetic bags that protects dry agricultural commodities

- Against insect infestation and mold growth.
- Preserves Taste and aroma.,
- Retains the germination rate of seeds for more than a year without using toxic chemicals.
- We have bags which can carry food grains from 5kg to 300metric tonne.

Hermetic Storage – Bigger Capacity

- GrainPro Cocoon - low permeability to air and moisture for chemical-free long term storage.
- Storage Capacity (in MT) : 5, 10, 20, 50, 100, & 150, 300.

Solar Bubble Dryer

- Faster drying time (in fully sunny conditions) vs. conventional sun drying.
- Can be installed on any flat surface.
- A cheaper option/solution relative to existing mechanical dryers, Portable and easy to relocate, Protects commodities during drying to prevent post-harvest losses.
- Provides protection against birds, fowls and other animals (it's an multi-commodity dryer).

Collapsible Dryer Case

- Reduces loss caused by spillage.
- Easy to repair and maintain, Portable and easy to relocate.
- Does not need fuel or electricity to dry your commodities, Lightweight, collapsible rack for drying grains on almost any flat surface.
- Enables rapid closing to secure commodities in case of weather changes.
- Easy installation through inflation of side walls.

Air Bags – Protective Packaging

Air Bag Packaging can be applied to many products, especially valuable, tiny, and fragile things.

Automated Packaging Systems, LLC has been a world leader in designing and manufacturing flexible bag packaging systems since 1962. We are the original inventor of Autobag® bagging machines and pre-opened bags.

Autobag Bagging Solutions

Semi and fully automatic “**bag-on-a-roll**” packaging systems, called the “**Open-Fill-Seal**” Concept. Used in Automobile, Hardware and Electrical sectors for packaging of spares and consumables.

Markets Served

Aerospace & Defense | Apparel & Accessory Packaging | Automotive |
Electronics | Hardware & Fasteners | Healthcare | Hobby & Craft |
Household & Personal Products | Pet Products | Toys

Create Protective Foam Cushions in Three Simple Steps

Instapak® Quick RT® protective foam packaging can be activated right out of the box and requires no additional equipment.

Press

Press firmly on the “A” symbol near the lower left corner of the bag to break the seal.

Pat

Mix the components by firmly patting back and forth 10–20 times on the “A” and “B” symbols.

Pack

Quickly place the expanding bag of foam into the box and nestle the product into the rising foam. Repeat the process as needed.

- **Easy-to-Use:** Anyone can become a packaging expert — instantly.
- **Superior Product Protection:** Virtually eliminate shipping damage.
- **No Start Up Costs:** No dispensing system or warming unit required.
- **Versatile:** Protects products of almost any size, shape and weight.
- **Fast:** Expands in seconds to form custom-fit protective foam cushions.
- **Convenient:** Takes up little space and is completely mobile so you can use it anywhere.
- **Customer Satisfaction:** Product arrives in a neat professional package.

3P Packaging Solutions

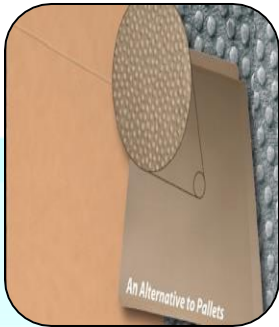

Avoid Transit Damages in Warehouse/Export

GRIP SHEETS for Pallet Stability

We offer Grip sheets which are interleaving sheets placed in between each layer of goods placed on the pallet. Grip sheets are made of both recycled kraft paper and PET with a special coating on both sides which form dots. These dots hold the goods by friction and thereby offering stability for goods while in transit.

Grip & Slip Sheet for Pallet Replacement

We offer slip sheets in 2 varieties. One is called the Grip N Slip sheet which is basically a Kraft paper and plastic slip sheet with top surface embedded with an anti-slip paper called the Grip Sheet. This Grip sheet offers more stability to the goods placed on the slip sheet to prevent load shifting.

Protective Packaging - Dunnage Bag

Dunnage bags is used to fill in gaps or empty spaces left in containers/trucks after loading. It prevent movement of goods in container by filling in empty spaces and keeps the goods intact.

Protective Packaging - Desiccant

Desiccant bags protects your cargo from moisture, rust, mold during transportation. This product is totally harmless. It can be placed on top of food packs and industrial products. Absorbs 100% moisture and is made of natural clay.

BOPP Lamination Film

BOPP Films is Biaxially Oriented Polypropylene (BOPP) Film. Which is stretched in both the machine direction (MD) and across machine direction (AMD) during manufacturing.

Features of BOPP LAMINATION FILM

- Biaxially Oriented Polypropylene.
- Print Lamination Industry.
- Submersible pump industry.
- Tea / Food packaging.
- Heat sealable films automatic packing applications.

Plastics Injection Moulding Coloring Granules

Master Batches

We offer a wide range of master batches, which are useful for plastics processes such as sheet extrusion, fibers, blow moulding and many others.

Our range includes White/Black, Color, Optical Brightener and UV Master batches.

Our Consultation service includes technical usage of product in perfect ratio for obtaining the required color.
